Pre-K Age 4

A great way to make friends, meet neighbors, learn a team sport and most importantly have fun!

Kindergarten Soccer Program:

A great way to make friends, meet neighbors, learn a team sport, and most importantly have fun! Players will experience the basic principles of the game (passing, dribbling, shooting, control etc) in a fun environment. Activities and games are structured to focus on developing each player. Games are played in a small sided game format (3v3 and 4v4)

1st Grade Soccer Program:

This program is skills-based, to encourage players to master the fundamentals of the game. Each week, the players work on a series of fun activities designed to develop their technical ability, then finish with live small sided games. The program is challenging but fun, and by the end of the season you will notice significant improvement in their play and love of the sport.

2nd Grade Soccer Program:

Building on the Kindergarten and First grade programs, players are introduced to more team oriented activities. Players will continue to work individually with the ball but also in pairs, learning to combine with their teammates to move up and down the field. Learning different positions on the field is also introduced for this group.

About Cedar Stars Academy:

Our focus and philosophy in The Foundation is based on one main goal: FUN! We want these young players who are being introduced to professional coaching for the first time to enjoy every minute of training. Our coaches and curriculum are focused on this main goal. Within this, there is always work to be done. At this stage, habits are created and technical skills are taught to each individual player at Cedar Stars Academy. Each player will participate in age-appropriate small-sided games. It is also important to realize results are irrelevant at this stage, and it is the love of the game and the technical foundation that are the main goals.
