

## CHAPTER XVI SEWERS

### 16-9 MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4).

#### 16-9.2 Illicit Connections to Municipal Separate Storm Sewer Systems Prohibited.

- a. *Purpose.* The purpose of this subsection is to prohibit illicit connections to the municipal separate storm sewer system(s) operated by the Borough of Tinton Falls, so as to protect public health, safety and welfare, and to prescribe penalties for the failure to comply.
- b. *Definitions.* For the purpose of this subsection, the following terms, phrases, words and their derivations shall have the meanings stated herein unless their use in the text of this subsection clearly demonstrates a different meaning. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word "shall" is always mandatory and not merely directory.

*Domestic sewage* shall mean waste and wastewater from humans or household operations.

*Illicit connection* shall mean any physical or nonphysical connection that discharges domestic sewage, non-contact cooling water, process wastewater, or other industrial waste (other than stormwater) to the municipal separate storm sewer system operated by the Borough of Tinton Falls, unless that discharge is authorized under a NJPDES permit other than the Tier A Municipal Stormwater General Permit (NJPDES Permit Number NJ0141852). Nonphysical connections may include, but are not limited to, leaks, flows, or overflows into the municipal separate storm sewer system.

*Industrial waste* shall mean nondomestic waste, including, but not limited to, those pollutants regulated under Section 307(a), (b), or (c) of the Federal Clean Water Act (33 U.S.C. §1317(a), (b), or (c)).

*Municipal separate storm sewer system (MS4)* shall mean a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, manmade channels, or storm drains) that is owned or operated by the Borough of Tinton Falls or other public body, and is designed and used for collecting and conveying stormwater. NOTE: In municipalities with combined sewer systems, add the following—"MS4s do not include combined sewer systems which are sewer systems that are designed to carry sanitary sewage at all times and to collect and transport stormwater from streets and other sources."

*NJPDES permit* shall mean a permit issued by the New Jersey Department of Environmental Protection to implement the New Jersey Pollutant Discharge Elimination System (NJPDES) rules at N.J.A.C. 7:14A.

*Non-contact cooling water* shall mean water used to reduce temperature for the

purpose of cooling. Such waters do not come into direct contact with any raw material, intermediate product (other than heat) or finished product. Non-contact cooling water may however contain algacides, or biocides to control fouling of equipment such as heat exchangers, and/or corrosion inhibitors.

*Person* shall mean any individual, corporation, company, partnership, firm, association, or political subdivision of this State subject to municipal jurisdiction.

*Process wastewater* shall mean any water which, during manufacturing or processing, comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, byproduct, or waste product. Process wastewater includes, but is not limited to, leachate and cooling water other than non-contact cooling water.

*Stormwater* shall mean water resulting from precipitation (including rain and snow) that runs off the land's surface, is transmitted to the subsurface, is captured by separate storm sewers or other sewerage or drainage facilities or is conveyed by snow removal equipment.

- c. *Prohibited Conduct.* No person shall discharge or cause to be discharged through an illicit connection to the municipal separate storm sewer system operated by the Borough of Tinton Falls any domestic sewage, non-contact cooling water, process wastewater, or other industrial waste (other than stormwater).
- d. *Enforcement.* The provisions of this subsection shall be enforced by complaint signed by a member of the Department of Public Works, Code Enforcement or Public Safety of the Borough of Tinton Falls.
- e. *Violations and Penalties.* Any person, firm or corporation who violates or neglects to comply with any provision of this section or any rule, regulation or directive promulgated pursuant thereto shall be liable, upon conviction, to the penalty stated in Chapter I, Section 1-5 et seq.  
(Ord. #05-1173, §§1-5)
